

Shari Barnhart — Rainbowtech Designs

For 30 years, in both public and private education, I was an English teacher, Librarian, and Technology Specialist. I was well known for my workshops for teachers and administrators. Throughout this distinguished career, I focused on literacy and the use of technology to support learning. I possess a unique skill set including expertise in writing, design and website and multimedia creation. I focus on a client's project with the same kind of never-give-up attention I once gave to my students.
